February 19, 2020

“An Introduction to the Missouri Cybersecurity Center of Excellence”

Speaker: Dr. Shannon McMurtrey

Dr. Shannon McMurtrey is Assistant Professor of Management Information Systems at Drury University.

He obtained his B.S. and M.B.A at Missouri State University and his Ph.D. from Nova Southeastern University in 2010.

He joined Drury University in 2016 after spending 15 years at Missouri State University.

While at Missouri State he created their Cybersecurity graduate programs and taught courses in software development and Cybersecurity. Prior to Missouri State University he co-founded a software company that created one of the first commercial e-commerce platforms (which is still in use today) providing him with his initial education in the field of Cybersecurity.

His research interests are in the areas of Cybersecurity and artificial intelligence; neural networks in particular and his PhD dissertation involved taking a serial neural network training and optimization algorithm, and converting it to a parallel algorithm enabling the analysis of larger datasets in shorter amounts of time.
